Open to opportunities worldwide: permanent, full-time, part-time, contract and remote roles.

PROFESSIONAL SUMMARY

Full-stack software engineer with 6+ years of experience delivering web applications, SaaS platforms, REST APIs and real-time systems. Strong production background in Angular, TypeScript, NestJS and Node.js, spanning architecture, databases, integrations and CI/CD. Experience in technical leadership, code reviews and mentoring in distributed Agile teams.

TECHNICAL EXPERTISE

TypeScript, JavaScript, Angular, RxJS, NestJS, Node.js, Express, React · REST, microservices, WebSocket, Socket.io · PostgreSQL, MySQL, MongoDB, Elasticsearch · JWT, RBAC · Docker, GitLab CI/CD, GitHub Actions, Git, Jest, Mocha · Python, Roboflow, Java, Spring Boot, Tailwind CSS, NG-ZORRO · Agile / Scrum

PROFESSIONAL EXPERIENCE

Software Engineer | Dhahri AlKubaisi Technologies | 09/2024 – Present · Qatar / Remote

- Padel: designed NestJS services for booking, scheduling, payments and users; integrated Python and Roboflow for player and ball detection.
- Darb: built Angular tender workflows for administrators, bidders and reviewers; integrated APIs, JWT authentication and role-based access.
- INOVALYA: led full-stack architecture and delivery of a project-management SaaS; designed skills-based task assignment, reviewed code and mentored developers.
- Qartis / Qode: developed marketplace listings, messaging, contracts and dashboards; helped evolve the product into a multi-tenant white-label SaaS.

Software Engineer | Barsha Technology | 02/2022 – 08/2024 · Tunisia

- Yellow Park: Angular interfaces and real-time parking availability using WebSockets. Barsha Food: ordering, delivery and APIs. Barsha E-Commerce: vendor dashboards and Stripe integration.

Full-Stack Developer | Solinum Consulting | 09/2021 – 01/2022 · Paris

- Built ERP and HR modules for employee records, attendance, payroll and reporting using Java, Spring Boot, Angular and SQL.

Software Engineer | Samsysoft | 01/2020 – 07/2021 · Tunisia

- FantkaLive and myTeam: Node.js / Express APIs, MongoDB, React and Angular dashboards, Socket.io and Elasticsearch search.
