PROFILE

Full-stack software engineer with 6+ years of experience delivering web applications, SaaS platforms, REST APIs, and real-time systems. Specialized in Angular, TypeScript, Node.js, and NestJS, with hands-on experience across software architecture, data persistence, integrations, and CI/CD. Technical lead on SaaS delivery, with experience in code reviews and developer mentoring in distributed Agile teams.

TECHNICAL SKILLS

Front-end	Angular, TypeScript, JavaScript, RxJS, React, Tailwind CSS, NG-ZORRO
Back-end & APIs	Node.js, NestJS, Express, REST APIs, microservices, WebSocket, Socket.io
Data & security	PostgreSQL, MySQL, MongoDB, Elasticsearch, JWT, RBAC
DevOps & testing	Docker, GitLab CI/CD, GitHub Actions, Git, Jest, Mocha
Additional	Python, Roboflow, Java, Spring Boot

PROFESSIONAL EXPERIENCE

Software Engineer | Dhahri AlKubaisi Technologies

Qatar · Remote — **Sep 2024 – Present**

Padel — Booking platform with AI-assisted tracking | **Back-End Engineer**
NestJS · TypeScript · Python · Roboflow · REST APIs · microservices

- Designed and developed modular services for bookings, scheduling, payments, and user management.
- Integrated Python and Roboflow for player and ball detection, exposing AI processing to application workflows through REST APIs.
- Defined service contracts and separated AI processing from core business logic to enable independent component evolution.

Darb — Enterprise tender-management platform | **Front-End Engineer**
Angular · TypeScript · Tailwind CSS · NG-ZORRO · JWT · RBAC

- Developed responsive Angular interfaces and reusable workflows for administrators, bidders, and evaluators across the tender lifecycle.
- Integrated tender-submission APIs and implemented JWT-based authentication with role-based access control.
- Supported code reviews and continuous delivery through GitLab CI/CD within a distributed Agile team.

INOVALYA — Project-management SaaS | **Technical Lead**
Angular · NestJS · TypeScript · REST APIs · Docker

- Led full-stack technical architecture and delivery, defining backend modules, API contracts, and reusable Angular components.
- Designed skills- and availability-based task assignment; mentored developers and conducted code reviews.

Qartis / Qode — Marketplace and white-label SaaS | **Full-Stack Engineer**
Angular · NestJS · TypeScript · REST APIs · Docker

- Built project listings, messaging, contracts, evaluations, and role-specific dashboards.
- Helped evolve the marketplace into configurable multi-tenant SaaS through shared-module refactoring, client customization, and Docker deployments.

Software Engineer | Barsha Technology

Tunisia — Feb 2022 – Aug 2024

Yellow Park — Smart-parking platform | **Front-End Engineer**

Angular · TypeScript · WebSocket · Docker

- Built modular Angular interfaces for live parking availability and vehicle activity, synchronizing updates with WebSockets.

Barsha Food — Food ordering and delivery | **Full-Stack Engineer**

Angular · NestJS · TypeScript · REST APIs · Docker

- Implemented cart, checkout, order management, and delivery tracking, including supporting APIs and real-time status updates.
- Contributed to containerized deployment and CI/CD workflows in a distributed team.

Barsha E-Commerce — Multi-vendor marketplace | **Full-Stack Engineer**

Angular · NestJS · TypeScript · Stripe · REST APIs

- Developed seller dashboards and multi-vendor order workflows, integrating Stripe for payment processing.

Full-Stack Developer (Internship) | Solinum Consulting

Paris, France — Sep 2021 – Jan 2022

ERP & HR management — Enterprise application

Java · Spring Boot · Angular · SQL

- Designed the data model and developed employee, attendance, payroll, and reporting modules.
- Implemented business logic and Angular interfaces; performed functional testing and defect fixes.

Software Engineer | Samsysoft

Sousse, Tunisia — Jan 2020 – Jul 2021

FantkaLive — Real-time application and dashboard

Node.js · Express · MongoDB · React · Socket.io · Swagger · Mocha

- Built REST services and a React dashboard, implementing Socket.io updates, Swagger documentation, and Mocha backend tests.

myTeam — Web application with search

Angular · Node.js · Express · MongoDB · Elasticsearch

- Designed application modules and implemented front-end and back-end features, integrating Elasticsearch search.
- Produced UI mock-ups and technical documentation and contributed to functional testing.

EDUCATION

Engineering Degree in Software Engineering | ESSAT Gabès · 2021

Senior Technician Diploma in Telecommunications | ISIMG Gabès · 2018
